Lookbook Edition III

We are Moventi.
Designers and manufacturers
of workplace furniture solutions.

Made in the UK.

moventi

moventi

inspired by humans

Quality furniture for everyone.

Because we're all different and we love different. We make our furniture with love, suitable for everyone.

The best of Moventi...

This LookBook is for your inspiration. It contains a selection of favourite furniture designs produced for environments where people love to be.

Moventi have developed the skill of harmonising design and manufacturing advancements enabling consistency, efficiency and sustainability without compromising on the flexibility and agility that is needed in our fast-paced world to deliver a great solution.

Above this, we're human and we really care about giving our customers a great experience.

Ed Nunn

Managing Director

We're all about you!

Moventi's Smart Service mantra forms the very backbone of everything we do. We are self-confessed service addicts, it's our culture, it's the way we do things and not just one of the team carrying a 'Customer Service' badge.

From concept to completion, we remove friction from your process of specifying and procuring office furniture. We take a very human-to-human approach, providing reliable support at every step enabling you to give your clients the very best experience.

"In order to be irreplaceable one must always be different."

- Coco Chanel

Environmental Commitments

At Moventi, we are all about humans, so our mission is to do our bit to make the world a more sustainable place to live for us all. Our team are working hard to introduce more and more truly sustainable products to the office furniture market, and operate in the most sustainable way that we can. To achieve this, we have involved ourselves in numerous schemes that promote a sustainable way of operating.

Climate Positive

Moventi is a certified Climate Positive business, which means that we have gone beyond carbon neutral status, to offset at least 110% of our impact. Part of this journey is contributing to projects around the globe that are dedicated to avoiding carbon emissions and preserving natural habitats, including the Rimba Raya Biodiversity Reserve.

This is a project close to our heart, that is preserving the peatland forest of Rimba Raya that would have been turned into palm oil estates, emitting over 100 million tonnes of carbon into the atmosphere. Part of the project is also working with local communities to achieve all of the 17 SDGs, and conserving one of the last wild orangutan populations on Earth.

ALTON **AT2** two seater sofa

Alton
