

**Welcome to
Our World**

We Are Staverton

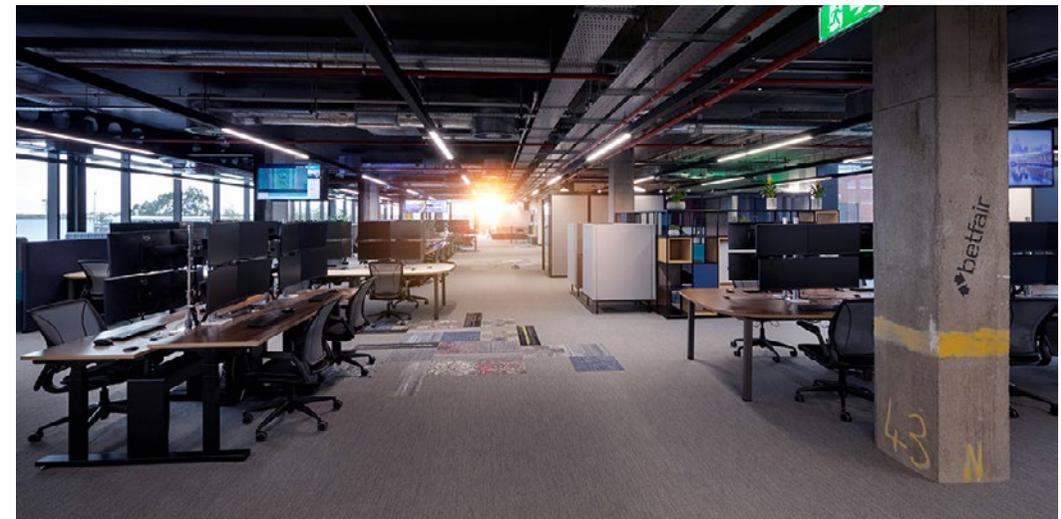

We are Staverton and we solve furniture challenges, we've made our name designing and manufacturing office furniture to suit clients' specific needs.

We come into our own when you set us a challenge, whether it's building on an existing product or starting with a blank piece of paper. We bring form, function and flexibility together without compromise.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London.

With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq. ft. of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

A Positive Change

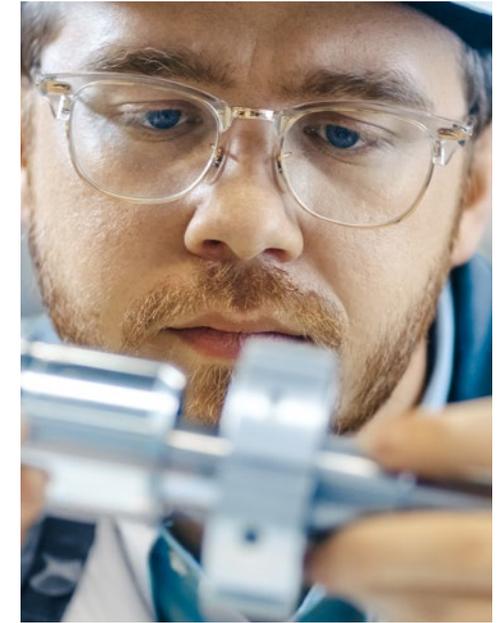

Over the past year, Staverton has recycled 98.5% of the waste we generate. Our aim is to increase this to 99% by next year.

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

Staverton is Carbon Neutral for Energy. One of our ways to help our planet is to reduce our company's carbon footprint.

Respect for the environment is in Staverton's DNA. We care for our setting by creating sustainable, environmentally friendly products.

Our Solutions

Although best known for our workstations, Staverton has a much wider range of furniture solutions spanning workplace and integrated technology.

Collaboration

Configurable workwalls that bring organisation, media, and ideas together

Storage

Smart storage solutions that optimise space and keep work flowing

Tables

Versatile tables shaped for meetings, creativity, and connection

Sit Stand

Adaptable sit-stand desks built for today's agile workplaces

Desking

Flexible desking solutions designed to power collaboration and focus

Tailor-Made

Tailored solutions, not off-the-shelf compromises

Sit Stand

Product Main Features

Hot-swappable actuators allow for easy configuration changes between fixed and height-adjustable.

Hi-capacity variants for both upper and lower cable management for increased cable requirements.

Intermediate leg offering to reduce cost on long linked runs.

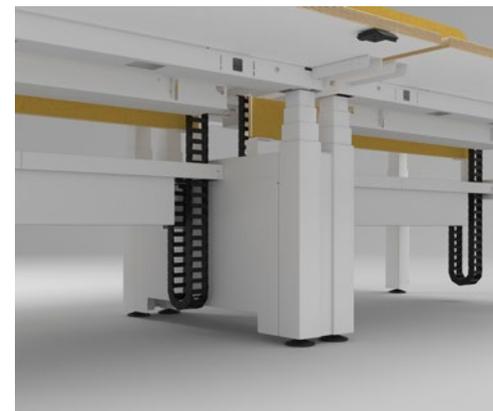

Two tiers of linking allow for higher versatility and client choice.

Leg frame cladding allows for invisible and protected cable entry while enabling easy management and cable access.

Mobile option available on braked castors for agile working.

Sliding top option for easy cable access at rear of workstation.

18mm fixed top option facilitates the use of a wider variety of finishes.

SOS2

[Discover more](#)

Introducing SOS2 – the new and improved version of our celebrated SOS range of sit-stand workstations we first launched in 2014.

SOS2 retains all the functionality and benefits as well as exciting new features designed to improve choice, aid workplace agility, maintain the design aesthetic and reduce cost.

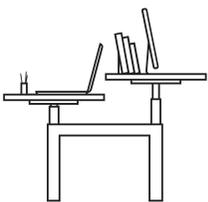

SL2

[Discover more](#)

A lighter-weight alternative to our SOS sit-stand range, SL2 delivers the same durability, adaptability, and exceptional cable management in a streamlined design. Its clean lines suit open-plan and space-conscious workplaces, while shared components with SOS - including swappable actuator columns - make it easy to switch between fixed and sit-stand setups.

The integrated cable management bridge, trays, and risers keep workspaces organised and clutter-free, with options for corner desks, castors, and a wide range of finishes. Ideal for both individual workstations and long, collaborative bench runs.

Sit Stand

Sit Stand

QB Height Adjustable offers all the clean, efficient design of the standard QB range, but with the added flexibility of electric sit-stand adjustment. Its smooth, quiet actuators deliver reliable height changes at the touch of a button, helping users switch effortlessly between sitting and standing throughout the day.

Product Main Features

Hot-swappable actuators allow for easy configuration changes between fixed and height-adjustable.

Available as either a back-to-back twoperson bench or a single desk, with optional fabric-upholstered screens and modesty panels.

The QB Height Adjustable system is available as electric height-adjustable option (650–1300mm). It accommodates desktops from 1000–1800mm wide and 650–800mm deep, with overall bench depths ranging from 1300–1600mm.

Complete cable management comes as standard, including upper and lower trays and umbilical risers for clean vertical wire organisation.

QB Height Adjustable

88 Family

In keeping with all Staverton ranges, 88 also includes discreet and practical cable management and power systems as well as a wide variety of screen options.

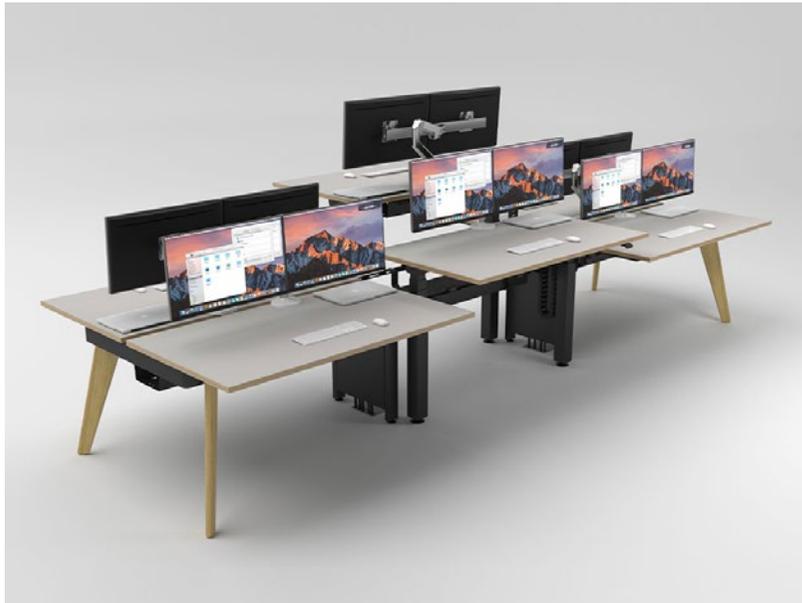

88

[Discover more](#)

The Staverton 88 range –introduced as part of our 88th anniversary celebrations–includes attractive desk, bench and table solutions.

Its platform uses the underlying flexibility of a telescopic metal beam in conjunction with solid timber uprights to create a versatile steel/timber hybrid under-structure.

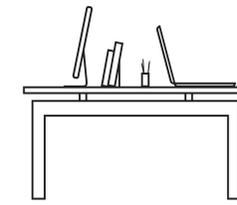

If you're looking for something different, we can adapt the products to meet your requirements.

This sophisticated furniture system will make any office environment feel like home.

ZD+

[Discover more](#)

Desking

ZD+ combines the minimal aesthetic with exceptional build quality at a highly competitive price. A full collection of desks, benches and tables are offered with a light floating top that sits away from the structural frame.

Cable management is simple and effective, concealing all vertical and horizontal cable paths from view. The Staverton ZD+ range holds the prestigious FIRA Gold Certification.

QB Fixed Height

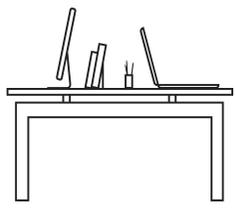

[Discover more](#)

A lightweight, practical choice that proves less can be more. Designed with a minimal number of components, it offers a clean, streamlined aesthetic and keeps costs competitive without compromising quality. Available as a single-cross-rail desk or a twin-cross-rail bench, QB adapts easily to different workspace layouts. Like all Staverton ranges, it incorporates discrete, effective cable management to keep work surfaces tidy.

QB accommodates widths from 800–1800mm, with desk frame depths of 600 or 800mm. Back-to-back bench frames are available in 1200 and 1600mm depths, and a universal intermediate leg allows seamless inline runs. Returns can also be added (1200–1800mm) to create radial desks, giving designers freedom to adapt to any floorplate.

Desking

Picnic Tables

[Discover more](#)

Designed for collaborative breakout spaces, the Picnic table brings flexibility and style to the agile workplace. Available in standard or poseur height, with static or mobile frames, it's equally suited to hot-desking, informal meetings, or a quick break from the desk.

Configurations range from compact tables to extended runs for larger groups, with the option of an overhead gantry for lighting, cable management or integrated planters. Clean lines, versatile formats and a wide choice of finishes make Picnic a practical, adaptable solution for both focused work and social interaction.

Tables

Column-Based Tables

[Discover more](#)

Our column-based tables combine clean, modern aesthetics with robust engineering. The central column design maximises legroom and allows for flexible seating arrangements, while the heavy-duty base ensures exceptional stability.

Available in a variety of sizes, shapes, and finishes, these tables are ideal for meeting rooms, breakout spaces, or collaborative work areas. Designed for durability and style, they deliver a professional look that works seamlessly across different workplace settings.

Tables

Flip-Top Tables

[Discover more](#)

Designed for flexibility, Staverton flip-top tables are ideal for meeting rooms, training spaces, and conference environments. Available in a range of sizes, with the option to integrate power and data, they make it easy to support technology-led collaboration.

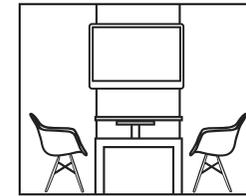

The flip-top mechanism and lockable castor wheels allow tables to be moved, nested, and stored with ease, enabling quick reconfiguration of any space. Multiple finish options ensure they complement any interior style while delivering practical, adaptable performance.

Tables

EX

[Discover more](#)

Collaboration

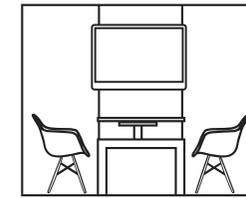

Staverton EX is our premium office solution for executive and AV spaces. A modular system that brings technology, storage, and spatial elegance together - built to flex, impress, and adapt to the needs of modern leadership teams and client-facing spaces.

Designed to provide everything a modern professional needs to work productively and comfortably throughout the day. With a choice of fixed-height or sit-stand desks, it supports healthier working habits and improved ergonomics, while ample personal and general storage keeps the workspace organised. Integrated power ensures simple plug-and-play connectivity, making it effortless to stay connected.

Scrumwall

[Discover more](#)

Collaboration

Scrumwall is a flexible space-defining structure that supports workplace agility and scrum-led activities.

It houses AV capability discretely and supports standing or sitting height tables.

Discreet cable management is always a key design consideration for Staverton, so Scrumwall offers worksurface-to-floor cable management thanks to our carefully designed cable duct with removable cover.

Scrumwall is a free-standing version of our already successfully wall-mounted meeting room solution Staverton Workwall – and it is available in both single-sided and double-sided versions.

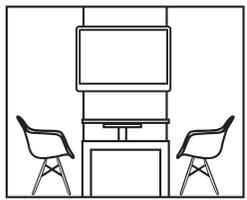

Workwall

[Discover more](#)

Workwall is a modular wall system that hosts TV screens, whiteboards, acoustic panels and more.

Aluminium framed, wall-hung panels are available in a multitude of configurations and customised to different sizes, finishes and accessories.

Collaboration

Completely customisable, Workwall gives you the flexibility to design the perfect system for your environment.

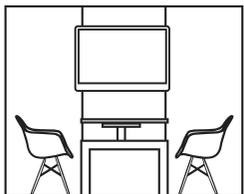

M-Wall

[Discover more](#)

M-Wall is a mobile partition system designed to bring flexibility, functionality and style to the modern office. With options including integrated AV, whiteboards, acoustic panels, shelving and planters, it transforms spaces for collaboration, presentations or focus.

Smooth castors and tactile leather handles make it effortless to move, giving teams the freedom to adapt and define their workspace instantly.

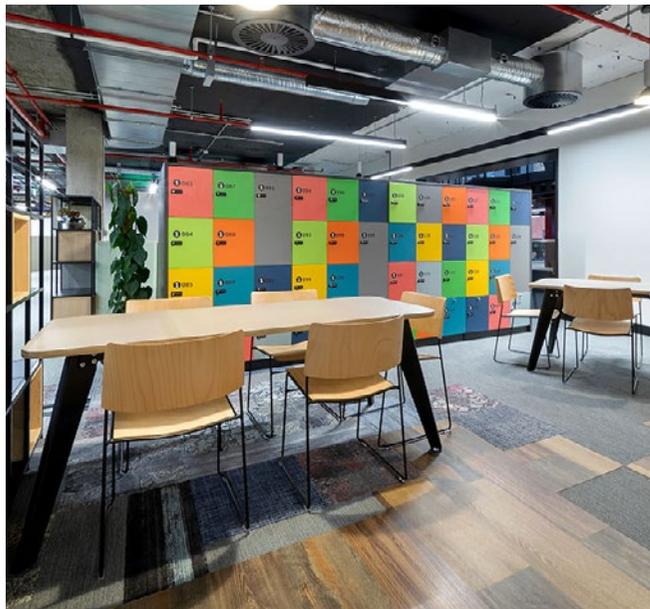

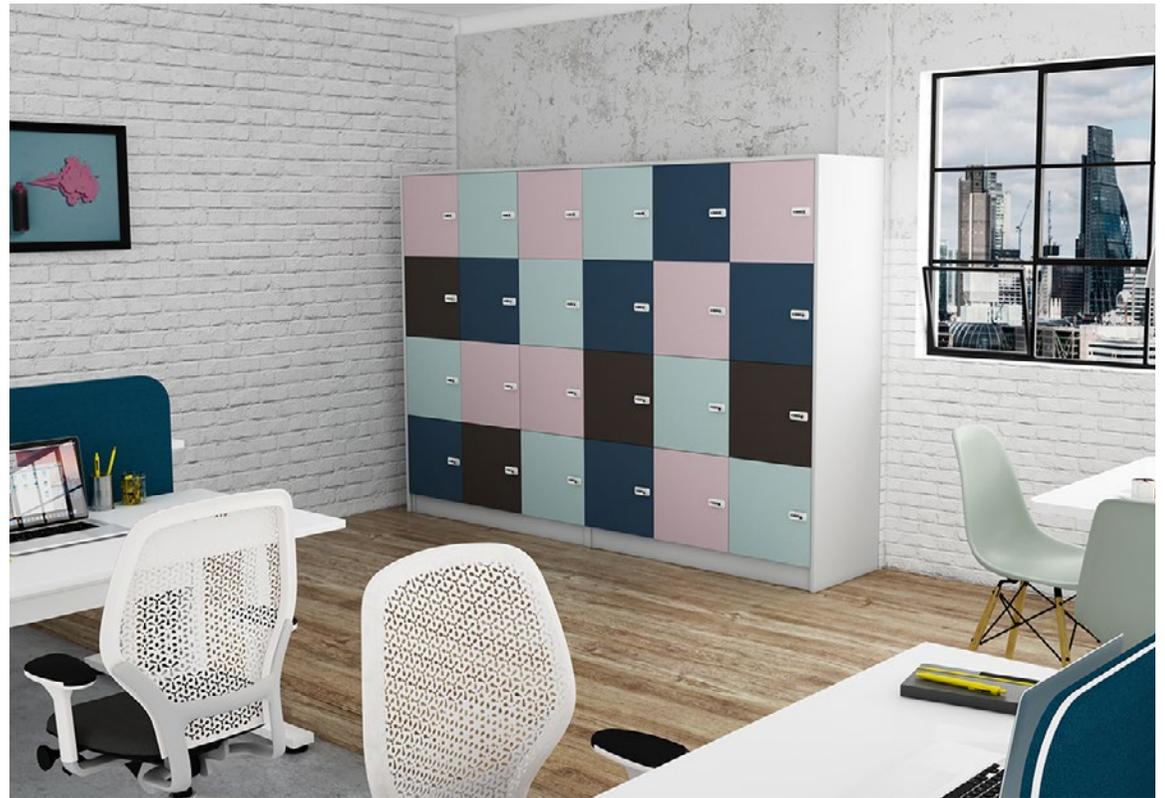

Collaboration

BX

[Discover more](#)

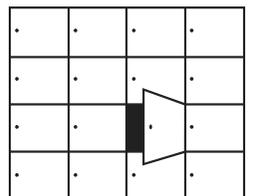

Designed for the agile workplace, BX is our new range of smart locker solutions. Customise your colour and tailor your size to the needs of your office and team, easily.

Inspire Creativity

Increase organisation and productivity, creating a fun, vibrant work environment.

Our wide selection of finishes lets you customise your door fronts, carcass and add décor cladding panels. Your storage can be as unique as your company.

Storage

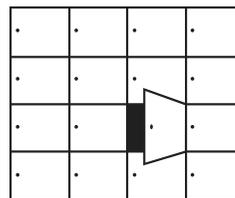

Staverton

BX Modular

[Discover more](#)

Staverton BX Modular is one of the most comprehensive and expansive modular storage solutions on the market. It's easy to customise and reconfigure by mixing and matching different components to create the perfect configuration for your workspace.

BX Modular is the perfect addition to BX Lockers, optimising space and storage. It comes in four different heights and can be used to define zones and pathways within open-plan workspaces.

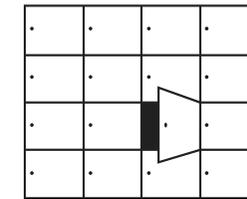

Storage

TT

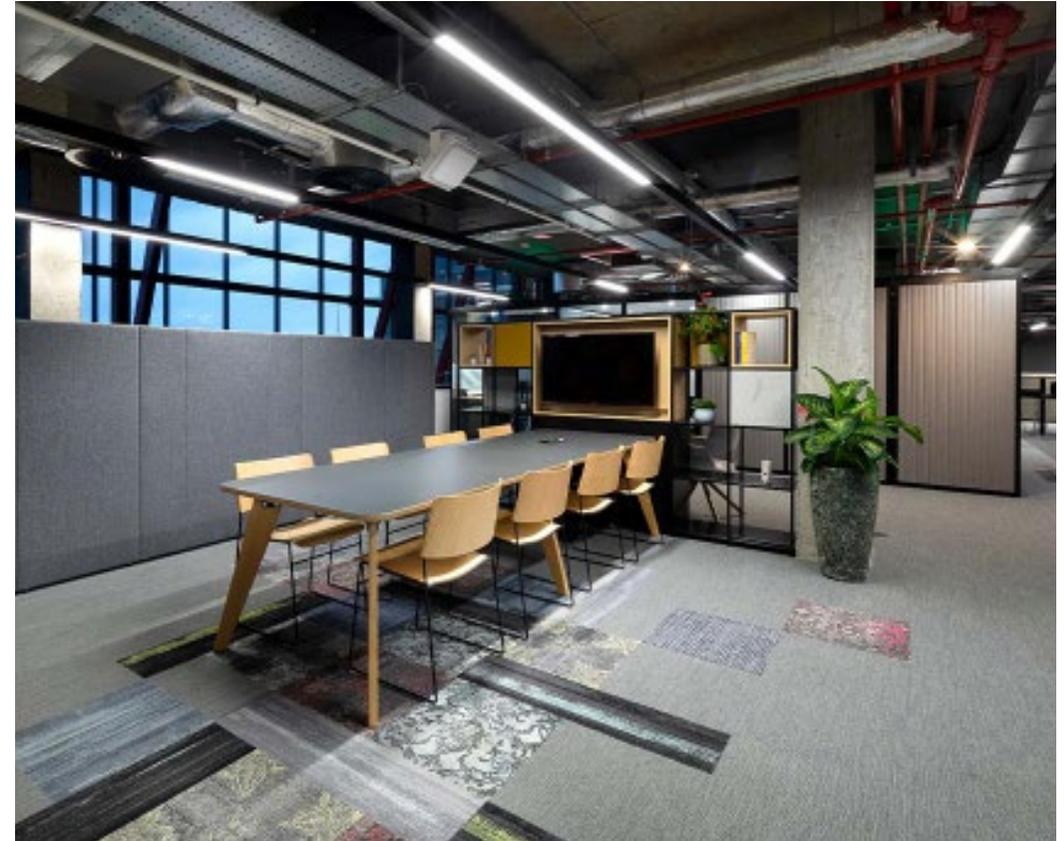

[Discover more](#)

Staverton

Storage

The workplace is changing, with more emphasis on creativity, collaboration, employee wellbeing, and a homier feel. The need for furniture solutions to offer differing work zones, breakout spaces, social spaces, and natural environment elements has never been in more demand.

Staverton TT offers a super flexible way to define different zones and build storage into the office, plus it can be personalised with ease. You could add lockers, cabinets, planters, standing tables, desks, whiteboards, TVs and a whole lot more.

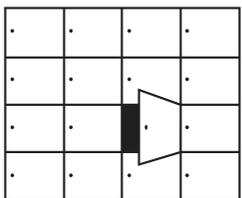

Credenzas

[Discover more](#)

Available in a wide range of sizes, Staverton credenza units provide generous storage for everything from personal items and meeting materials to workplace technology. Designed with flexibility in mind, they are easy to move, reconfigure, and adapt to changing needs, making them an ideal choice for both collaborative environments and private offices.

Combining practicality with a clean, contemporary aesthetic, credenzas fit seamlessly into any interior style, while their robust construction ensures lasting performance. Whether used to support meetings, house AV equipment, or simply keep spaces organised, Staverton credenzas offer a versatile and stylish storage solution.

Count on Us

Staverton Introduction

Staverton is an award-winning British manufacturer of office furniture. Thanks to our bespoke design approach and quality craftsmanship, we have been solving clients' furniture challenges for decades. It's how we've earned an enviable reputation as innovators – combining form, function and flexibility to meet clients' needs, without compromise.

Lead Time

Having our own production facility in South Yorkshire and the latest BAZ processing machinery installed in the factory allows Staverton to have a most competitive lead time. The benefits of our 38,000 sq ft of space for assembly and design become evident by the short time between the placement of an order and the delivery of the product.

Warranty

All Staverton systems have a lifetime warranty on framework and a 10-year warranty on top panels. Moving parts and electrical items have a five-year warranty. The warranty is valid for products supplied in mainland UK and used during normal office hours. It covers all defects in materials and workmanship, but does not apply to damage resulting from neglect, misuse or accidents.

Resources

At Staverton we understand the importance of supporting our clients, ensuring our designs work to meet their specific requirements. A comprehensive set of space planning tools and resources such as detailed product specifications, image library, render graphics, CAD and BIM files are all available.

Repair & Maintenance

Regular repair and maintenance is essential to keep screens and upholstered furniture looking at its best. We can provide extensive furniture cleaning care tips, conservation advice, repair instructions and recommendations to help keep all Staverton products looking their best.

Showroom

Conveniently located in London, our newly refurbished Clerkenwell showroom exhibits Staverton's wide range of products. Clients are welcome to visit and see our complete product range.

Quality Policy

Our commercial and management objectives are to provide products and services that consistently meet the needs and expectations of our clients, whilst operating in compliance with all regulatory requirements. To ensure this, we hold the British Standard BS EN ISO 9001:2015 Quality System Model accreditation.

Environmental

Our commitment to sustainability and environmental best practice is continual. As part of this we are working with clients to manage the disposal of their end-of-life office furniture in a responsible manner.

Staverton was one of the first UK office furniture companies to achieve the ISO 14001 certification. We are proud to hold the BM TRADA's registration number –001 as well as the current ISO 14001:2015 certificate.

Case Study

Flutter

Scale: 2,000 staff
Location: Dublin, Ireland
Timeline: 12 months
Furniture: Scrumwall, ZD+ and SL desks, 88 tables, BX lockers and cabinets.

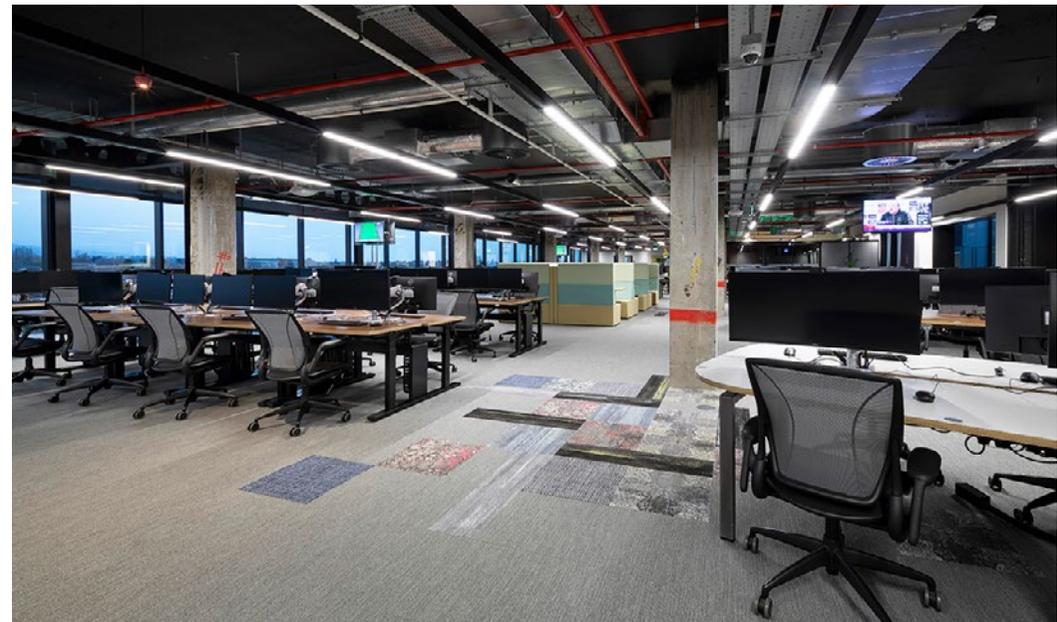

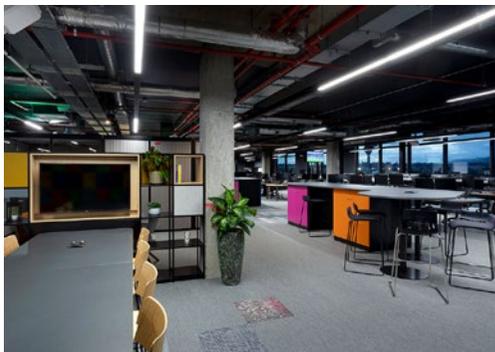

Flutter Entertainment plc is a global sports betting and entertainment provider with over 14 million customers worldwide. The business has 20 offices globally and employs over 14,000 people.

Staverton has been the principal furniture supplier to Flutter companies for over five years – helping them transition from traditional office space to a more agile and hybrid workplace. The Dublin headquarters had to be significantly increased to accommodate staff growing from 1,300 to over 2,000 staff during two years.

The business needed to leave its existing building for over 12 months while the new space was constructed. We provided all new furniture for their temporary swing space with a view that everything supplied would also be appropriate to relocate into the new space once finished.

The end result was an impactful product and environment, giving the client exactly what they required: space utilisation and staff interaction.

Case Study

BT chose Staverton to work with and support their Better Workplace Programme. The mission: modernise, enable collaboration, create efficiencies, and better serve customers.

The Better Workplace Programme is a five-year UK-wide venture. The aim is to improve and consolidate BT's footprint of more than 300 locations to 30 – including corporate offices, contact centres, and specialist sites.

BT Group

Scale: 3,500 staff
Location: London
Timeline: 6 months
Furniture: 88 table collection

BT's vision is to design vibrant state-of-the-art workplaces designed to give their employees the best environments to collaborate, create, and innovate.

Our highly flexible 88 Table Collection has fully met BT's brief to provide attractive, functional, and cost-effective tables across a wide variety of table settings. We're currently working on significant projects for BT in Belfast, Bristol, and Manchester.
