

# Welcome to Our World

# We Are Staverton

---

We are Staverton and we solve furniture challenges, we've made our name designing and manufacturing office furniture to suit clients' specific needs.

We come into our own when you set us a challenge, whether it's building on an existing product or starting with a blank piece of paper. We bring form, function and flexibility together without compromise.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London.

With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq. ft. of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

One of the ways we can help our planet is to reduce our company's carbon footprint. That's why we're proud to say Staverton is Carbon Neutral for Energy.

Over the past year, Staverton has recycled 98% of the waste we generate. Our aim is to increase this to 99% by next year.

# A Positive Change

Respect for the environment is in Staverton's DNA. We are committed to creating sustainable and environmentally friendly products.

# Our Solutions

---

Although best known for our workstations, Staverton has a much wider range of furniture solutions spanning workplace and integrated technology.

## Collaboration

Modular panel systems that can host TV monitors, whiteboards, shelves, and more.

## Storage

While offering standard storage solutions, including lockers.

## 88 Family

Hybrid steel/timber collection includes desk, bench and table solutions.

## Sit Stand

A fully adjustable range of mobile desk and bench solutions.

## Benching

Flexible and space efficient, bench desking brings people together.

## Mobility

Agile working demands change to teams, locations and styles of work.

# SW

Scrumwall is a flexible space-defining structure that supports workplace agility and scrum-led activities.

It houses AV capability discretely and supports standing or sitting height tables.

Discreet cable management is always a key design consideration for Staverton, so Scrumwall offers worksurface-to-floor cable management thanks to our carefully designed cable duct with removable cover.

Collaboration

Scrumwall is a free-standing version of our already successfully wall-mounted meeting room solution Staverton Workwall – and it is available in both single-sided and double-sided versions.

# WW

Workwall is a modular wall system that hosts TV screens, whiteboards, acoustic panels and more.

Aluminium framed, wall-hung panels are available in a multitude of configurations and customised to different sizes, finishes and accessories.

**Collaboration**

Completely customisable, Workwall gives you the flexibility to design the perfect system for your environment.

# TT

Collaboration

The workplace is changing, with more emphasis on creativity, collaboration, employee wellbeing, and a homier feel. The need for furniture solutions to offer differing work zones, breakout spaces, social spaces, and natural environment elements has never been in more demand.

Staverton TT offers a super flexible way to define different zones and build storage into the office, plus it can be personalised with ease. You could add lockers, cabinets, planters, standing tables, desks, whiteboards, TVs and a whole lot more.

# BX

Designed for the agile workplace, BX is our new range of smart locker solutions. Customise your colour and tailor your size to the needs of your office and team, easily.

Increase organisation and productivity, creating a fun, vibrant work environment. Our wide selection of finishes lets you customise your door fronts, carcass and add décor cladding panels. Your storage can be as unique as your company.

Storage

# SOS2

Introducing SOS2 – the new and improved version of our celebrated SOS range of sit-stand workstations we first launched in 2014.

SOS2 retains all the functionality and benefits as well as exciting new features designed to improve choice, aid workplace agility, maintain the design aesthetic and reduce cost.

Sit Stand

## Product Main Features

- Hot-swappable actuators allow for easy configuration changes between fixed and height-adjustable.
- Hi-capacity variants for both upper and lower cable management for increased cable requirements.
- Intermediate leg offering to reduce cost on long linked runs.
- Two tiers of linking allow for higher versatility and client choice.
- Leg frame cladding allows for invisible and protected cable entry while enabling easy management and cable access.
- Mobile option available on braked castors for agile working.
- Sliding top option for easy cable access at rear of workstation.
- 18mm fixed top option facilitates the use of a wider variety of finishes.

# SL2

SL2 is an innovative, feature-packed range of sit-stand workstations for the modern workplace.

As the lighter-weight version of the celebrated sit-stand desk range SOS – SL2 offers our trademark durability and innovative approach to cable management as well as improved cost efficiency, flexibility and longevity.

Sit Stand

## 88 Family

In keeping with all Staverton ranges, 88 also includes discreet and practical cable management and power systems as well as a wide variety of screen options.

# 88

The Staverton 88 range — introduced as part of our 88th anniversary celebrations — includes attractive desk, bench and table solutions.

Its platform uses the underlying flexibility of a telescopic metal beam in conjunction with solid timber uprights to create a versatile steel/timber hybrid under-structure.

If you're looking for something different, we can adapt the products to meet your requirements.

This sophisticated furniture system will make any office environment feel like home.

# ZD+

Benching

ZD+ combines the minimal aesthetic with exceptional build quality at a highly competitive price. A full collection of desks, benches and tables are offered with a light floating top that sits away from the structural frame.

Cable management is simple and effective, concealing all vertical and horizontal cable paths from view. The Staverton ZD+ range holds the prestigious FIRA Gold Certification.

Project of the Year 70k+ sq ft.  
Claremont Group Interiors Ltd.

Flutter Entertainment plc. is a global sports betting and entertainment provider with over 14 million customers worldwide. The business has 20 offices globally and employs over 14,000 people.

Staverton has been the principal furniture supplier to Flutter companies for over five years — helping them transition from traditional office space to a more agile and hybrid workplace. The Dublin headquarters had to be significantly increased to accommodate staff growing from 1,300 to over 2,000 during two years.

The business needed to leave its existing building for over 12 months while the new space was constructed. We provided all new furniture for their temporary swing space with a view that everything supplied would also be appropriate to relocate into the new space once finished.

# Case Study

## Flutter's Dublin HQ

Scale: 2,000 staff  
Location: Dublin, Ireland  
Timeline: 12 months  
Furniture: Scrumwall, ZD+ and SL2 desks, 88 tables, BX lockers and cabinets

*"After nearly 20 years of working with and around furniture supply and installation, I have never worked with a better supplier than Staverton. I have had the pleasure of working with Paul and his team for 2 years and they have always provided an exceptional service from design concept right through to delivery. The product knowledge, design and problem solving the team provide has been invaluable in the delivery of a number of refurbishment and relocation projects and best of all their tenacity to get things exactly right has always resulted in a surprise free install. I cannot recommend them highly enough."*

Senior Manager Contracts and Services CRE  
Paddy Power Betfair

The end result was an impactful product and environment, giving the client exactly what they required: space utilisation and staff interaction.

# Case Study

## BT Group's London HQ

Scale: 3,500 staff  
Location: London  
Timeline: 6 months  
Furniture: 88 table collection

BT chose Staverton to work with and support their Better Workplace Programme. The mission: modernise, enable collaboration, create efficiencies, and better serve customers.

The Better Workplace Programme is a five-year UK-wide venture. The aim is to improve and consolidate BT's footprint of more than 300 locations to 30 — including corporate offices, contact centres and specialist sites.

BT's vision is to design vibrant state-of-the-art workplaces designed to give their employees the best environments to collaborate, create and innovate.

Our highly flexible 88 table collection has fully met BT's brief to provide attractive, functional, and cost-effective tables across a wide variety of table settings. We're currently working on significant projects for BT in Belfast, Bristol and Manchester.

*"When BT Group asked us to support their Better Workplace program as well as aid collaboration, improve functionality and deliver a strong aesthetic, we responded with more than 40 tables of different shapes, sizes, heights and finishes across a wide variety of work settings. This was a sizeable design project and our work was aided by the flexibility of our CAD/CAM packages. We approached BT Group's brief with creativity and our trademark of quality workmanship and attention to detail."*

# Count on Us

## Staverton Introduction

Staverton is an award-winning British manufacturer of office furniture. Thanks to our bespoke design approach and quality craftsmanship, we have been solving clients' furniture challenges for decades. It's how we've earned an enviable reputation as innovators – combining form, function and flexibility to meet clients' needs, without compromise.

## Lead Time

Having our own production facility in South Yorkshire and the latest BAZ processing machinery installed in the factory allows Staverton to have a most competitive lead time. The benefits of our 38,000 sq ft of space for assembly and design become evident by the short time between the placement of an order and the delivery of the product.

## Warranty

All Staverton systems have a lifetime warranty on framework and a 10-year warranty on top panels. Moving parts and electrical items have a five-year warranty. The warranty is valid for products supplied in mainland UK and used during normal office hours. It covers all defects in materials and workmanship, but does not apply to damage resulting from neglect, misuse or accidents.

## Resources

At Staverton we understand the importance of supporting our clients, ensuring our designs work to meet their specific requirements. A comprehensive set of space planning tools and resources such as detailed product specifications, image library, render graphics, CAD and BIM files are all available.

## Repair & Maintenance

Regular repair and maintenance is essential to keep screens and upholstered furniture looking at its best. We can provide extensive furniture cleaning care tips, conservation advice, repair instructions and recommendations to help keep all Staverton products looking their best.

## Showroom

Conveniently located in London, our newly refurbished Clerkenwell showroom exhibits Staverton's wide range of products. Clients are welcome to visit and see our complete product range.

## Quality Policy

Our commercial and management objectives are to provide products and services that consistently meet the needs and expectations of our clients, whilst operating in compliance with all regulatory requirements. To ensure this, we hold the British Standard BS EN ISO 9001:2015 Quality System Model accreditation.

## Environmental

Our commitment to sustainability and environmental best practice is continual. As part of this we are working with clients to manage the disposal of their end-of-life office furniture in a responsible manner.

Staverton was one of the first UK office furniture companies to achieve the ISO 14001 certification. We are proud to hold the BM TRADA's registration number –001 as well as the current ISO 14001:2015 certificate.
